"The Woman's Roosevelt Memoral Association is a national organization of American women which is to restore the birthplace of Theodore Roosevelt in New York City. The Association was started clmost immediately after Colonel Boosevelt's death with a permanent object in view, Later the Roosevelt Memorinl Association was formed but at no time has it been connected in any way with our Asociation. Unfortutately there has been some confusion in the mind of the public owing to the similarity of the names of the two organizations.
